Vendors may name resellers and providers in bordering states if the State of West Virginia is a normal part of that provider's territory.
10. **Warranty:** Where the term "warranty" is used, it shall be understood that during the quoted warranty period all parts, labor, travel time, travel expenses and any other cost required to correct the copier, shall be the responsibility of the vendor. MONOCHROME COST SHEETS

ALTERNATE QUOTE

These alternate quote sheets contain an option that includes no copies in the base charge. The service billing will be a monthly basis on the ACTUAL usage of copies ran.

Often times, agencies do not reach their monthly-included copies, therefore paying for many copies that they do not use. Understanding - this is due to the fact that an department/agency prefers a faster speed or capabilities of a higher band.

SCOPE OF SERVICE ABILITY

Superior Office Service has been a locally owned WV business since 1962. Superior has steadily grown each year increasing our business numbers every year. Superior Office Service was one of the first Independent Office Suppliers to become an authorized Canon dealers and to this day, remains one of the 5 oldest dealers who have serviced Canon products continuously for over 25 years in the United States.

Our business model as been simple, "give people service beyond expectations, over deliver, and your business will thrive." We have always maintained that if you take care of business, business will take care of you.

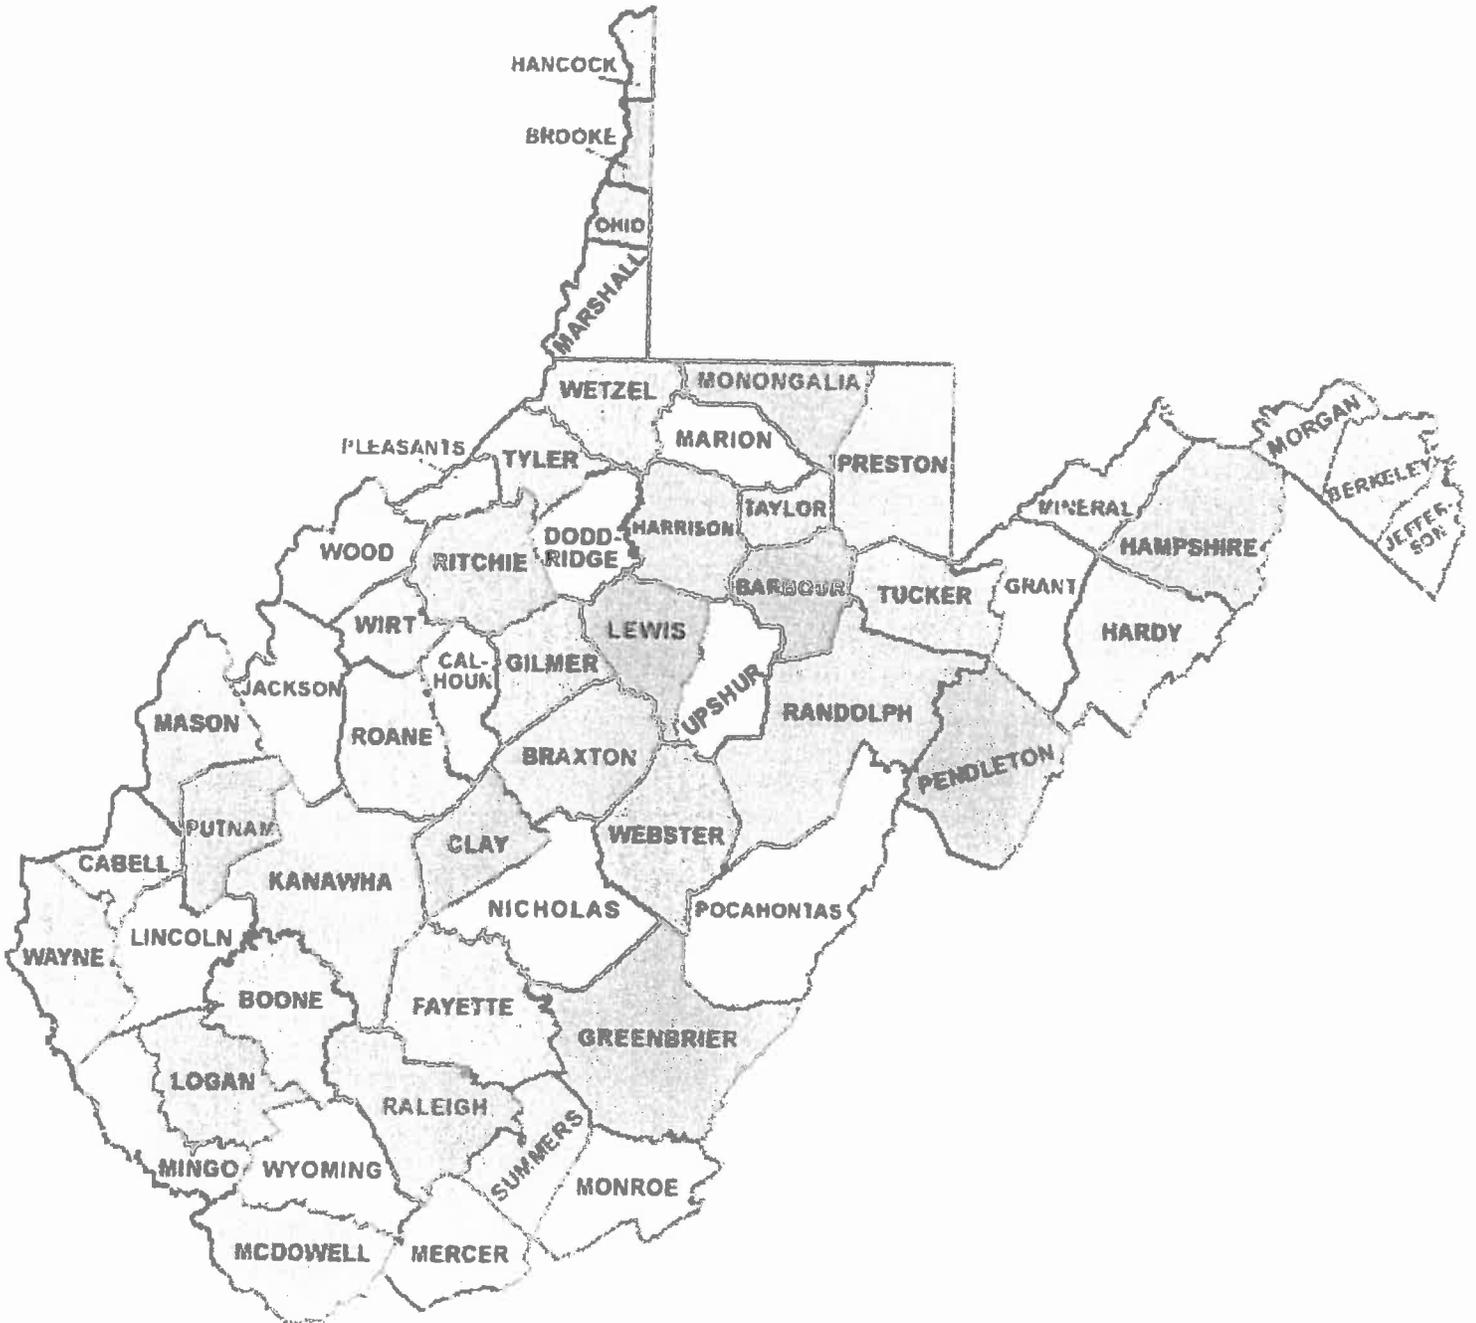

Although we do not service the entire State, we have two offices, one in Charleston and one in Huntington to take care of the counties listed on the next page that Superior will provide on-site service to in a reasonable manner. (Our average response time is less than 4 hours.) We have 13 certified technicians, and 3 IT support people ready to service the HEPC and WVNET contract accounts. Our technician average experience time is over 25 years in the industry.

Superior keeps a large stock of parts and toners in our warehouse that is readily available to our technicians and customers. If a unit requires a obscure item/part that we may not have in-stock, Superior will next day or second day air a part at our expense in order to keep our customers up an running with very minimal downtime. Parts available from Canon on units that might be discontinued during the life of this contract, is 10 years from discontinue date.

Although at this time, Superior is unable to give full State Coverage through our offices, Superior is working with other Canon Authorized locations, such as Canon Business Solutions - who services the upper end of the State such as Monongalia and others, to expand the contract coverage for West Virginia as approval is given. We understand that this offering is for stated counties only and that any expansion to subcontractors will require the same pricing, terms, conditions and the approval HEPC and WVNET.

"Experience the Superior Difference"
