[WVNET NEWS](#)

***WVNET powers
organizations and
institutions in every corner
of West Virginia.***

Every West Virginian -- in every county, every community, and every home -- benefits from the work of the West Virginia Network for Educational Telecomputing (WVNET).

WVNET connects K-12 schools, higher educational institutions, libraries, state and county government, and various not-for-profits to the Internet and the rest of the world through our state-of-the-art network and telecommunications expertise.

Our team of dedicated IT professionals provide guidance and training to

educators and staff in higher education and K-12 schools. Our research and development of software, tools, and systems address problems and tackle challenges that are unique to West Virginia's public institutions and not-for-profits.
