K-12

January 12, 2018

Proud to Partner with County Schools Across West Virginia

West Virginians know that the future belongs to our children, and that education is paramount to their success. By offering a number of essential services and unrivaled customer support, WVNET will collaborate with your institution to meet all of your needs, going above and beyond through our efforts to bring the very best network technologies to every client we serve.

By working closely with our K-12 partners on a variety of technological endeavors, WVNET strives to build lasting relationships that will benefit the people of West Virginia, students and teachers alike. We work everyday to confront challenges and find trusted solutions that will help prepare our state's institutions to face today's ever-changing technological landscape.

As part of our continued support of K-12 schools across the state, West Virginia Network offers a free basic website and web hosting to each and every public K-12 institution. To find out more, have your county's Board of Education contact us today for details on how to get started.

To join the WVNET family of K-12 partners, please contact us at wvnet@listerv.wvnet.edu or by calling [304.293.5192](tel:304.293.5192).
