June 21, 2018

Every West Virginian –– in every county, every community, and every home –– benefits from the work of the West Virginia Network for Educational Telecomputing (WVNET).

WVNET connects **K-12 schools**, **higher educational institutions**, **libraries**, **state and county governments**, and various **not-for-profits** to the Internet and the rest of the world through our state-of-the-art network and telecommunications expertise. Our team of dedicated IT professionals provide the systems, tools, and expertise needed to address today's challenges and unveil tomorrow's opportunities for all of West Virginia.

Use the map controls to toggle the different service and information layers. Included in this map are WVNET's index of customers (Government, Higher Education, K-12 Schools, County Courthouses, Public Libraries, and non-profits) and the WV **House** and **Senate districts**. [You can also open a full-screen version of this map in a new window.](#)
