*Does your organization have many problems and tasks that need to be organized and completed?*

*Do you have numerous people working on different things and you need a way to coordinate what they are doing?*

*Do all of your problems get resolved or do some fall through the cracks? Do you remember who did what, when, how?*

These are the kinds of things that **OZ** can help you with. **OZ** creates and manages documents that describe every piece of work at your organization from first report to completion.
